

Violência contra a mulher no município Duque de Caxias

Alayne & Luciana. Abril de 2021

01. Motivação

Em tempos de emergência, a violência contra as mulheres continua ameaçando seriamente a saúde da população, especialmente das mulheres, em todo mundo, sendo que o tipo mais recorrente de violência é aquela realizada pelo seu próprio parceiro íntimo (WORLD HEALTH ORGANIZATION et al., 2020)

02. Problema

A dificuldade de acesso à bases de dados detalhadas sobre violência contra a mulher não favorece o reconhecimento da gravidade e alcance dessa situação para a população e das sérias consequências para a saúde e segurança das mulheres do nosso país. Além disso, os formatos de divulgação das informações com respeito ao tema possuem baixo potencial de engajamento da audiência, dificultando o envolvimento da sociedade, de ongs e dos formuladores de políticas públicas na busca de soluções para diminuir o drama das mulheres

03. Objetivo

Localizar e conhecer a base de dados referente ao registro de atendimentos a mulheres vítimas de violência doméstica do município de Duque de Caxias para a realização de aplicações de Data Science que viabilizem esse dataset para:

1) responder perguntas e inquietações sobre a situação da violência das mulheres e 2) gerar inquietações que movam os atores sociais envolvidos no tema para tomadas de decisão que favoreçam o nosso público alvo

04. Hipótese

É urgente reunir dados, aperfeiçoar sua coleta e tratá-los de maneira que, de fato, reflita a realidade vivenciada e oriente ações públicas capazes de garantir não apenas qualidade de vida, mas ela própria às mulheres brasileiras.

05. Literatura

- Anonimização como forma de proteção de dados

- (i) a supressão;
- (ii) generalização;
- (iii) randomização e;
- (iv) pseudoanonimização.

- Dados sobre a violência doméstica

Awesome words

Study objectives

Mars

Mars is full of iron oxide dust, which gives the planet its reddish cast

Venus

Venus has a beautiful name and is the second planet from the Sun

Mercury

Mercury is the closest planet to the Sun and the smallest one of them all

Literature review

Theory 1

Mercury is the closest planet to the Sun and the smallest one in the Solar System

Theory 2

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot

Our objectives

Mars

Despite being red, Mars is actually a cold place

Mercury

Mercury is the closest planet to the Sun

Venus

Venus has a beautiful name, but it's hot

Jupiter

Jupiter is a gas giant and the biggest planet

Neptune

Neptune is the farthest planet from the Sun

Saturn

It's composed of hydrogen and also helium

A picture is worth a thousand words

Methodology

Research

Venus is the second planet from the Sun. It is named after a Roman goddess

Analysis

Mercury is the smallest and innermost planet in the entire Solar System

Data study

Jupiter is the fifth planet from the Sun and the largest in the Solar System

Comparison

Saturn is the sixth planet from the Sun and the second-largest

Table

Test 1 Test 2 Test 3 Test 4

Describe here your metrics 1

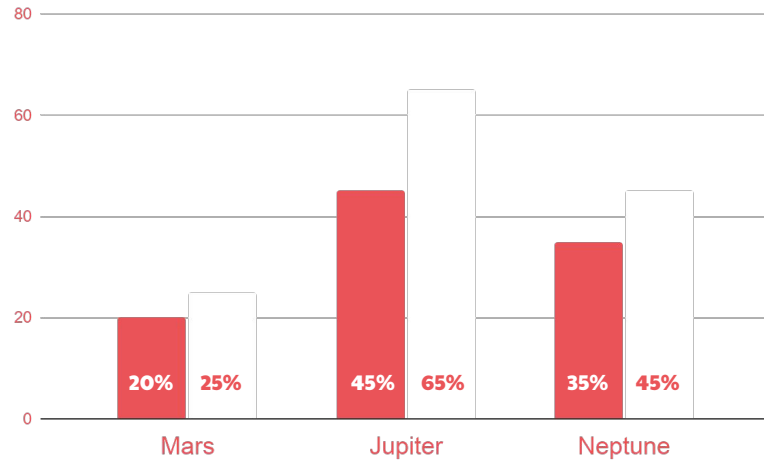

Describe here your metrics 2

Describe here your metrics 3

Results analysis

60%

Mercury is the smallest and innermost planet in the entire Solar System

To modify this graph, click on it, follow the link, change the data and paste the resulting graph here, replacing this one

Conclusions

01.

The planet's name has nothing to do with the liquid metal since it was named after the Roman messenger god, Mercury

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury

02.

About me

Laura Smith

Mercury is the smallest and innermost planet in the entire Solar System

This is a map

Mars

The planet's name has nothing to do with the liquid metal, since it was named after the Roman messenger god, Mercury

A 5x5 grid of red dots. The bottom-left 3x3 area is shaded light red.

-

Results presentation

It's the sixth planet from the Sun and the
second-largest

80

Mercury is the closest planet to the Sun

4852

Venus has a beautiful name

250M

It's the sixth planet from the Sun

Our timing

February

Venus has a beautiful name

01.

January

The closest planet to the Sun

02.

March

A gas giant and the biggest planet

May

Earth is the planet where we live on

04.

April

Pluto is now a dwarf planet

05.

Jun

Neptune is very far away from Earth

06.

A decorative graphic consisting of a grid of small red dots arranged in 5 rows and 5 columns, located in the top right corner of the slide.

250,000

Jupiter is a gas giant and the biggest planet
